## **FINANCIAL STATEMENT**

It is the policy of the Spine Institute of Arizona to collect co-pays and any outstanding patient balances before each visit. If you cannot pay your co-pay and any outstanding balance your appointment will be rescheduled.

Our business office will bill your medical insurance for the services rendered in our office. Payment is not guaranteed by your insurance. You are ultimately responsible for all charges. The insurance process normally takes approximately 60-90 days. You will receive monthly financial statements to include any outstanding charges on your account. Once insurance has processed payment, your financial statement will reflect any deductibles and/or co-insurance due from you as per your insurance.

It is your responsibility to know and understand your insurance policy and benefits. We will bill secondary insurance as a courtesy.

Our providers are not contracted with any AHCCCS / Medicaid insurance programs. You will be responsible for outstanding balances.

If your insurance has lapsed, is inactive, or for any reason does not cover the expenses that you have incurred at the Spine Institute of Arizona, you will be responsible for the full charges that have been billed to your insurance company. Payment for these charges must be received within 30 days from receipt of your bill.

If you choose to pay by check and your check does not clear, you will be responsible for paying the bank administrative charge of \$25.00 plus the amount of your original check.

If we have had no response or contact from you within 60 days to pay off your balance, the Business Office will turn your account over to our collection agency. The collection agency will assess a 25% collection fee due in addition to your original balance.

### **SELF-PAY PATIENT POLICY:**

We do see patients on a self-pay basis. The charge for services will be collected prior to the service being rendered. Cash, debit card with VISA/MasterCard guarantee, or credit card payment is the only accepted form of payment for self-pay patients. Sorry, no personal checks are accepted.

### **INJECTIONS/SURGICAL PROCEDURE POLICY:**

**If you become a candidate for injections or surgery, it is our policy to collect any deductible or co-insurance that may be due in advance.** Cash, debit card with VISA/MasterCard guarantee, or credit card payment are the only accepted forms of pre-payment for these services. Sorry, no personal checks are accepted. Payment must be received no later than 48 hours prior to the injection or one (1) week prior to surgery or your procedure will be cancelled. To determine any financial responsibility to the facility, please contact the facility prior to your procedure.

### **DISABILITY / MEDICAL LEAVE FORM POLICY:**

If you need a disability / medical leave form filled out there will be a \$40.00 charge for each form. By signing this agreement, you understand that you will need to prepay the \$40.00 charge for this form to be completed and subsequently released.

Thank you for your understanding of our financial policies at the Spine Institute of Arizona. If you have any questions, please do not hesitate to give our Business Office a call at 602-953-9500.

## CONTROLLED SUBSTANCES

As a patient at the Spine Institute of Arizona, you may or may not be prescribed a controlled substance. If you are prescribed a controlled substance, we require that you agree to our controlled substance protocol. If you will not accept our protocol, we cannot treat you and you will need to work with another physician.

Controlled substance medications (i.e. narcotics, tranquilizers, and barbiturates) are very useful, but they have high potential for misuse and are therefore closely controlled by the local state and federal government. They are intended to relieve pain, to improve function and/or ability to work, not simply to feel good. If I am prescribed such medication, I agree to the following:

**Edward J. Dohring, M.D.**  
*Board Certified Orthopaedic Surgeon  
Fellowship Trained Spine Surgeon*

**Paul R. Gause, M.D.**  
*Board Certified Orthopaedic Surgeon

**Brock P. Auten, D.C.**  
*Board Certified Chiropractic Physician  
Board Certified Physiotherapist*

**Donna M. Lahey, R.N.F.A.**  
*CEO  
Registered Nurse First Assist*

**Jennifer R. Watry, PA-C**  
*Certified Physician Assistant*

1. I am responsible for my controlled substance medications. If the medication is lost, misplaced, or stolen, or used up sooner than prescribed, I understand it will not be replaced.
2. I will not request or accept controlled substance medication from any other physician or while I am receiving such medication from the Spine Institute of Arizona physicians.
3. Refills of controlled substance medication:
  - A. Will be made only during regular office hours Monday through Friday 9 am to 4 pm. Refills will not be made at night, on holidays, or weekends. I will call at least seventy- two (72) hours ahead for all prescription refill requests. Refills requested on Friday will be filled the following week.
4. Upon request from my physician, if narcotic abuse is suspected, I may be asked to submit to a urine drug screen. If I decline, it will be the sole discretion of the Spine Institute of Arizona to discontinue my narcotic pain medication.
5. There are numerous side effects, which can occur as a consequence of the use of these medications. These include:
  - A. Sedation. If you experience this side effect, even slightly, you should not be driving an automobile until the effect wears off. It generally takes one to two weeks for this side effect to wear off. If confusion, mental changes or excessive sleepiness occur, report this to your physician or present to the nearest emergency room immediately.
  - B. Constipation. Notify your physician if you are experiencing constipation. People over the age of 60 are especially at risk for this complication. You should aim towards consuming eight 8-oz glasses of water per day. In addition, you make take daily doses of Senokot-S or Dulcolax. Alternatively, Milk of Magnesia may be used once every three days (follow package instructions). Continue in the manner until bowel movement is achieved.
  - C. Urinary retention. Males over the age of 60 are especially at risk for this complication.
  - D. Itching. These drugs can cause itching in some patients.
  - E. Sweating. Profuse sweating can occur at any time with the use of these medications.
  - F. Nausea and vomiting. If this occurs, notify your physician.
  - G. Decreased sex drive.
  - H. Mild suppression of the immune response.

Controlled substances are known to cause psychological dependence (addiction), which I understand is real. I know that some persons may develop a tolerance to medications in which my body does not respond as well to the medication, and I feel the need to have more or a higher dose of the medication. I know that I can become physically dependent on the medication. This will occur if I am on the medication several weeks, and when I stop the medication, I must do so under medical supervision, or I may have withdrawal symptoms.

I have read this agreement and I understand the above cautions and I understand that if I do not follow the rules of this agreement, I will no longer be able to obtain medications from the Spine Institute of Arizona.
